COURSE OVERVIEW

FUNDAMENTALS OF PROJECT MANAGEMENT

Here is a quick overview of your course plus useful information about navigating the online platform.

Your semester starts once you have completed your onboarding.

Tomorrow belongs to people who prepare for it today. -AFRICAN PROVERB

PROGRAMME OVERVIEW

Learn how to scope, plan, manage and close out any project successfully. Topics covered include the critical concepts, theory, techniques and skills across all phases of a project, from start to finish.

WHAT YOU WILL LEARN

Your course contains 12 substantive modules/units. See an overview below:

- Discuss the project management environment and know the importance of a project lifecycle.
- Understand a feasibility study, the selection models, the development of a business case, and the preparation of a project scope.
- Plan the project deliverables with the use of Work Breakdown Structure, prepare a project schedule and plan resource requirements.
- Apply knowledge to cost estimating, budgeting, and cash flow planning to a project.
- Explain the project communication plan and the importance of communication.
- Implement scope, quality, and risk management plans.
- Monitor, control and report on the project and complete the project close-out activities.

ASSESSMENT INFO

Students must complete and submit various formative and summative assessments for each module. Refer to the Programme Guide on the Virtual Campus for information on assessments in this programme. The formative assessments contributes 40% to the final course mark, while the summative assessment contributes 60%. So the final pass mark for your course is 50%.
