PROGRAMME OVERVIEW

Gain a comprehensive understanding of the practical and management aspects of the procurement process, and learn the competencies needed to source products or services, negotiate contracts and ensure quality management. You will also learn how to analyse existing procurement practices for improvement and explore ethical considerations.

WHAT YOU WILL LEARN

Your course contains 7 substantive modules/units. See an overview below:

- Explain the importance of procurement management in contemporary business management.
- Develop skills and knowledge to evaluate and select suppliers effectively and efficiently.
- Outline the procurement process and design and implement procurement policies and strategies.
- Appreciate the role of quality management and discuss the types of contract management in procurement.
- Explain the role of global sourcing as well as negotiation in procurement.
- Recognise the role and importance of ethical and professional standards in procurement.

ASSESSMENT INFO

You must submit and pass formative assessments that are compulsory for each unit, and then also one summative assessment at the end of your course. All assessments are completed online via a digital quiz on the student portal.
